

NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

We had a real good example of democracy in action this past weekend when the people of McCaulley voted to retain their school system intact. Through our system of government the people who were dissatisfied had their chance to be heard but still the majority ruled.

This is as it should be and the only flaw that we see in it is in people and not in the system. The whole issue brought on more bitterness between the two factions than it should.

Both sides have a right to their opinions and beliefs and no one should get mad when someone disagrees with them, especially when the whole issue can be settled at the polls.

Our hope is that both sides will join together now that the voting is over and take an active interest in the McCaulley School system and see to it that it is the best possible school that can be had with the money and facilities available.

One rather sad sidelight to the election that has come to our attention is that a number of people at McCaulley are unhappy with the people of Hamlin for signing the petition that called for the companion election here.

People that take this view lose sight of the fact that all the vote in Hamlin did was to permit the merger IF that was what McCaulley wanted to do. When enough people at McCaulley signed a petition calling for the election there they were entitled to a vote and the only way this was possible was for a similar petition to be signed in the Hamlin District. There may have been some who signed the petition with the desire that the two districts merge but we know that many just signed so that the issue could be settled by the people of McCaulley.

It is our opinion that anyone who holds a grudge against anyone just because they signed the petition is being grossly unfair. It should seem obvious that there is no way that anyone in Hamlin or in any other school district can take McCaulley's School away from the people of McCaulley.

The new traffic safety regulations that appear to be nearing approval by the Texas Legislature have gained more than passing interest around our house since one of the provisions will raise the minimum age for drivers. We have a boy who just barely missed taking driver's education this year and now may have to wait two years, naturally he was not too impressed with the whole program.

From the standpoint of theory we are in favor of the new age limit but from the more practical point of view we wonder about. Since we already have too many parents who permit their children to start driving when they are 12 and 13, and some even younger, we wonder what is going to happen when these kids drive three or four years before they have their licenses.

We have our doubts whether the parents involved will gain any will power through the new law and keep their kids from driving since they have been violating this law for years.

We personally do not know at what age a child is capable of handling a weapon as dangerous as an automobile but to us the worst part of permitting a youth to drive without a license is matter of flaunting the law. This is one of the major problems of our nation today — to many people do not believe that they need obey any law that they do not like.

We only hope that a tighter crack-down on unlicensed drivers comes along with the new law.

While on the subject of teenage driving we would like to suggest to the legislature that it might be well if they would consider applying the same rules to provisional licenses as is applied to sports by the U. I. L. — if a youth is not making passing grades he should have his license taken away until he is passing. And if he drops out of school he should not be allowed to drive until he is 18.

Any educator will tell you that cars and grades do not mix very well and particular when kids buy their own cars and try to keep them up

USEFUL PRIZE — The rain did not seem to dampen the spirits of the Cub Scouts, Boy Scouts, and visitors at the Scout Country Fair Saturday at the Jaycee Community Building. Vance Tabb, at left, three-year old-son of Mr. and Mrs. Monore E. Tabb, solved the problem by using a prize won at one of the booths to keep off the rain. Above, Dickie Cox of Den 3, mans the booth as the youngsters try their luck trying to put out a candle flame with a water gun. The Country Fair was well attended in spite of the showers during the afternoon. Scouting skills were shown by Boy Scouts and game booths were operated by the Cub Scouts and their den mothers and den chiefs.

Speaker Extends Three Wishes for Grads Monday

Dr. Joe Humphrey, speaker for the commencement exercises at Hamlin High School Monday evening extended three wishes to contribute to the success and happiness of the graduating seniors. The three wishes were for them to make, first, the proper choice when choosing their life's mate; second, a wise selection in choosing their life's work; and third, the acquisition of a good philosophy of life in order to have a good yard stick to measure their decisions.

Dr. Humphrey, administrative assistant to the president of McMurry College, told the seniors that this was not graduation but commencement, the beginning. He urged them to develop their potential and told them that this is a time when they have to learn more than they have ever learned before.

A \$100 scholarship was presented to Margaret Ann Johnson from the Women's Literary Club. The scholarship was given to honor a senior girl, this year in memory of a devoted member of the Club, Mrs. Carl Murrell. The fourth annual \$100 scholarship from the Business and Professional Women's Club was presented to Alice June Hill.

Principal B. V. Newberry announced the scholarship recipients.

Merger Vetoed By McCaulley

For the third time in less than two years, voters in McCaulley school district turned down consolidation of their school district.

Voters at the polls Saturday voted 139 against and only 99 for to defeat the

consolidation. Previously, on Aug. 7, 1965, the McCaulley voters tallied 119 against and 97 for consolidation with Hamlin. In recent months they also turned down a merger with Hamlin.

Hamlin voters Saturday indicated their willingness to consolidate had the issue passed in McCaulley by voting 135 for and 10 against.

We finally got that rain we needed so badly. We find that some areas didn't get as much as we did here in town, but it all helps. We got 2.90 in. of rain along with some hail and high wind.

Just would like to know if any Church had 99% of their enrolment present in Sunday School on Sunday morning? IT'S A WONDERFUL FEELING

When winter is past and most of the spring rains have come and gone, what a joy it is for a boy to go barefoot and feel the warm moist earth oozing up between his toes and the hot sun on his back... It's a wonderful feeling — remember?

If it has been some time since you were in the warm company of like-minded Christians and basked in the warmth and love of God's glory and grace as manifested in His Church, attend this coming Sunday. It's a wonderful feeling to sense that you are in tune with God, your fellow man, and the universe.

REDDY PREDICTS...

equal Electric Payments EVERY MONTH in the future...

IF you use WTU's Equal Payment Plan for electrical operating costs. Pay no more in August than you do in May — nor more in December than in September. Use WTU's budget plan for paying electric service bills. Here's how it works: WTU figures the amount of electricity your family would normally use in a year — then divides this figure by 12. You pay a budgeted even-dollar amount each month. Your service charge is reviewed monthly, and adjustment made either upward or downward if necessary to avoid any big lump payment. Like the idea? Then ask WTU for details... Reddy Kilowatt's people will be happy to plan Equal Payments for you.

Make a clean break with the past electrically...and budget it!
